On-Line Activities for Children Home During COVID-19 Crisis

With the schools closed parents have been looking for ways to keep their children entertained with activities. Below are a few list of activates your children can do on-line to help them spend their time while we all are "Staying Home and Staying Safe".

<https://classroommagazines.scholastic.com/support/learnathome.html> -Day to day projects to keep kids reading and learning

<https://www.khanacademy.org/> -Nonprofit whose mission is to provide a free, world-class education for anyone, anywhere.

<https://www.amnh.org/explore/ology> -The American Museum of Natural History (AMNH) in New York City offers online learning materials for science fans of all ages. Provides games and activities for kids and covers a range of science topics, including archaeology, paleontology, astronomy and marine biology.

<https://airandspace.si.edu/anywhere> -The Smithsonian National Air and Space Museum's webpage provides virtual tours of the museum, and educational podcasts, games and activities about aircraft and spacecraft.

<https://californiasciencecenter.org/stuck-at-home-science> - Video series of science activities you can do at home.

<https://www.rom.on.ca/en/learn/activities/classroom/hieroglyphs> Kids learn to write name in hieroglyphics

<https://www.montereybayaquarium.org/animals/live-cams> - Live cams from the Monterey Bay Aquarium.
